**LET THE FUN BEGIN**

## **Fitting a Throttle Cable to a 49cc Carburettor**

This is a simple guide, intended for Funbikes Customers who have purchased the mini moto, quad, motard and mini dirt bike carburettor, It contains instructional steps on how to fit a new throttle cable, and includes images to aid you in the process.

# Fitting a Throttle Cable to a 49cc Carburettor

This guide explains to fit a new throttle cable to a 49cc Mini Moto Carburettor.

## What product does this guide apply to?

- Mini Moto, Quad, Motard, Dirt Bike Carburetor
- FunBikes 49cc Kids Mini Quad Bike
- FunBikes 49cc Kids Big Wheel Mini Quad Bike
- FunBikes MT4A 50cc Mini Moto Racing Bike
- FunBikes Super Motard 50cc Mini Moto Bike

## Step 1

---

Unscrew the top of the carburettor.

## Step 2

---

Remove the slide from the centre of the carburettor.

## Step 3

---

Feed the nipple end of the cable through the top of the carburettor.

## Step 4

---

Slide the spring over the throttle cable.

## Step 5

---

Fit the nipple into the carburettor.

## Step 5 Continued

---

## Step 6

---

Refit the slide to the carburettor, when you refit the slide make sure you put it the correct way. If you fit this the wrong way around the throttle will stick open on the carburettor.

The side of the slide that you have feed the throttle cable on wants to be on the opposite side to the tick over screw. Lining up with the higher internal pin in the carburettor.
